# AHMED GOMAA

I am a recent computer science graduate with a strong interest and passion for cyber security. I have acquired some knowledge and experience in this field through my academic projects, internships, online courses and self learn and practice. I am proficient in various programming languages, tools and frameworks that are relevant for cyber security, such as **Python, C++, Java, Linux, Wireshark, Metasploit, Nmap and other pentesting and cyber security tools**. I am eager to learn new skills and technologies and to apply them in real-world scenarios. I am looking for an opportunity to join a dynamic and innovative cyber security team where I can contribute to the protection and enhancement of information systems and networks.

## EDUCATION AND QUALIFICATIONS

- Sep 2019 - Jun 2023 **Bachelor of Computer Science**  
Misr University for science and technology, 6th October scity  
Finished Bachelor of Computer Science in Misr University for science and technology, with **CGPA 3.9** ( **Excellent** )
- Sep 2023 - Jul 2023

## WORK EXPERIENCE

- Jul 2022 - Aug 2022 **Internship at the Digital Factory - Banque Misr**  
Digital Factory - Banque Misr, The Fifth settlement  
Participated in the Digital Factory Summer internship at Banque Misr, With a Graduation project in the **TOP 3** projects presented at the end of the internship
- 2021 **Member of ENACTUS student activity**  
ENACTUS student activity, 6th Of October  
I was a member of **ENACTUS**, a student activity that aims to create positive social impact through entrepreneurial projects. I served in the **project management committee**, where I was responsible for planning, executing and monitoring various projects that addressed the needs and challenges of different communities. I collaborated with other team members, stakeholders and beneficiaries to ensure the quality and sustainability of the projects.
- Oct 2019 **Member of MCPC student activity**  
I was a member of **MCPC (MUST Collegiate Programming Contest)**, a student activity that fosters **competitive programming** skills and prepares students for national and international contests. I participated in regular training sessions, workshops and online platforms to improve my problem-solving, algorithmic and coding abilities
- Jan 2023 **I was a member of CYBRARY student activity**  
I was a member of **CYBRARY**, a student activity that promotes cyber security awareness and education among students and the public. I attended various **events, talks and sessions** that covered topics such as ethical hacking, penetration testing, cryptography, malware analysis and digital forensics. I interacted with experts and professionals from the cyber security industry and learned from their insights and experiences. I also gained exposure to the latest trends and developments in the cyber security field and enhanced
